RTI Receives ACG Minnesota Emerging Growth Award

MINNEAPOLIS, MINNESOTA, November 6, 2006 –Restaurant Technologies, Inc. (RTI), a leading provider of cooking oil management services to the food service industry, is honored to be the recipient of the Association for Corporate Growth (ACG) Minnesota’s 2006 Emerging Growth award.

“Each year Minnesota ACG members nominate five to six local companies for this award,” said Pete Rasmussen, president of the Minnesota chapter. “Companies are evaluated on industry drivers, customer strategy, how they compete in the marketplace and social responsibility. RTI’s closed loop oil management program is industry leading and environmentally friendly. The company demonstrates a commitment to its values and we commend them on their success.”

RTI was selected for this annual reward because of the company’s financial performance and focus on environmental and social issues surrounding the food service industry. Commenting on the award, Jeff Kiesel, RTI’s CEO said: “I was pleased to accept this award on behalf of our employees. Indeed, our oil management program offers the food service industry a cost-effective and cleaner alternative to traditional cooking oil handling. Thank you, ACG Minnesota for recognizing our company.”

Founded in 1954, the Association for Corporate Growth is a global organization for professionals involved in corporate growth, corporate development, and mergers and acquisitions. The Minnesota Chapter draws its membership from leaders in corporations, private equity, finance, and professional service firms focused on building value in their organizations.
