Restaurant Technologies, Inc.
Opens Depot in Sacramento, California

MINNEAPOLIS, MINNESOTA, July 25, 2006 – Restaurant Technologies, Inc. (RTI), a leading provider of cooking oil management services to the food service industry, is pleased to announce that the company has opened a depot in Sacramento, California.

To celebrate the opening of the Sacramento facility, RTI will hold a ribbon cutting at 10:00 a.m., on Friday, July 28th. Attending the Grand Opening will be Jeffrey Kiesel, chief executive officer, and John Dashiell, western regional manager, along with other RTI executives.

Mark Berenguer, general manager, oversees the facility and its operations, which are located at 8583 Elder Creek Road. The depot services RTI customers in roughly a 100 mile radius including the cities of Sacramento, Vacaville, Yuba City/Marysville, Grass Valley, Stockton, Modesto, Davis, Turlock, Elk Grove, Folsom, and Roseville.

RTI has strategically located depots throughout the United States to support its customers, which include companies in the fast food industry, restaurants, grocery stores, school, hospitals and other food service providers. A depot serves as the distribution center for delivering new cooking oil and housing waste oil. Currently, RTI has 33 depots nationwide with plans to expand to 36 by the end of 2006.

“We are pleased to expand our California-based operations,” said Jeffrey R. Kiesel, chief executive officer at Restaurant Technologies, Inc. “Our customer base is growing and we believe RTI can provide more efficient delivery and service by opening this new facility. We look forward to be a part of the Sacramento business community.”

About Restaurant Technologies, Inc.

Restaurant Technologies, Inc. provides cooking oil services to over 10,000 restaurants, grocery and other food service customers across the U. S. The company’s unique business model has won it accounts such as McDonald’s and Albertson’s, and fueled greater than 50% annual growth since its founding. 2005 revenues totaled more than \$100 million.
